

## VAJDAHUNYAD CASTLE

09.12. / 10.00-19.00

09.13. / 10.00-17.00

Dear Visitor,

We kindly invite you to the Eighth National Public Employment Exhibition and Fair, organised by the Ministry of Interior.

Public employment in Hungary is a state-subsidised form of work, providing jobs for people who are temporarily or permanently unable to find employment in the primary labour market. In recent years, public employment has also played an important role in regional and rural development, significantly contributing to reducing disparities between regions through job creation.

Since 2013, the Hungarian Government has supported the establishment of social cooperatives. These organisations can provide further employment opportunities for people with work experience leaving public employment, based on the value-added programmes developed within public employment.

The opportunity to exhibit at the fair is both an acknowledgement of the achievements of public employers and social cooperatives and a motivation to continue their activities. It also offers a platform to present products created within the supported programmes to an evergrowing number of domestic and international consumers.

The event features 80 exhibitors showcasing the results of public employment programmes, providing an opportunity to discover municipalities, their products, and to taste and purchase local goods.

Our traditionally child-friendly programmes include folk dancing, popular and children's concerts with well-known performers, a performance by the Emergency Police Orchestra, and a police dog show on both days. The event will also be highlighted by a live performance from Melody Maker.

Thank you for visiting, and enjoy your time here!

### 12.09.2025.

**10.00 - 10.30**
